Attic Breeze[®]
America's Leader in Solar Powered Ventilation

ACTIVE VENTILATION SINCE 2006

Ventilation Is a System. **Not an Accessory.**

Most homes rely on passive ventilation that depends on wind and weather. Attic Breeze introduces active, solar-powered airflow that works when heat is highest — protecting the attic, roof system, and home below.

Why Attic Breeze?

- ✔ Heat and moisture removal
- ✔ Extended roof life
- ✔ Reduced HVAC strain
- ✔ Zero operating cost

ForgeBuilt™

STRENGTH YOU CAN TRUST

ALL-METAL HOUSING FOR SUPERIOR DURABILITY

PRODUCT DESCRIPTION

UltraBreeze™ is Attic Breeze's premium ventilation platform built for maximum airflow and durability. Designed for efficient attic airflow with mindful attention to aesthetics, it combines a venturi-shaped airflow design with a powerful yet silent motor and a large fan blade to maximize ventilation performance.

Designed for large attic spaces, steep pitches, and demanding climates, the spun aluminum housing coupled with the sleek, contemporary profile provides a powerful ventilation solution to attics with minimal visual interruption to the roofline.

- ✓ 14" Precision-balanced 5-blade aluminum fan
- ✓ Excels on steep pitches and complex rooflines
- ✓ Available attached or detached solar panel
- ✓ Adjustable solar panel on attached mount for adaptable sun capture

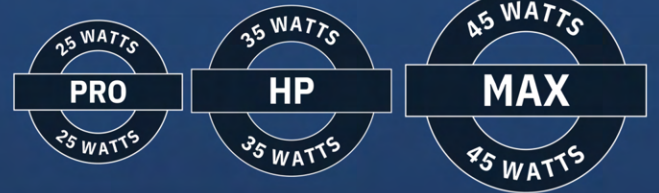

WHY ULTRABREEZE™

AEROBREEZE™

PRODUCT DESCRIPTION

AeroBreeze™ is Attic Breeze's compact solar-powered ventilation fan. Designed for efficient attic airflow in standard residential applications, AeroBreeze™ combines durable all-metal construction with high-output solar performance.

AeroBreeze™ delivers reliable cooling while maximizing a sleek profile on the roof. Perfect for homeowners seeking quiet performance, aesthetic appeal, and reliable cooling power.

NEW!

- ✓ 12" Precision-balanced 5-blade aluminum fan
- ✓ Proven performance in humid coastal conditions
- ✓ Sleek, low-profile design that satisfies HOA requirements
- ✓ Spun aluminum housing with durable powder-coat finish

WHY AEROBREEZE™

GABLEBREEZE™

DIRECT GABLE MOUNT APPLICATION

NO ROOF PENETRATION.
NO ADDED COMPLEXITY.
JUST AIRFLOW.

POWER

WHY GABLEBREEZE™

- ✓ 14" Precision-balanced 5-blade aluminum fan
- ✓ Durable steel construction
- ✓ Simplified approach to active airflow
- ✓ Preserves rooflines while adding consistent airflow
- ✓ Prevents moisture build up in continuous attic spaces with active air movement

SMART CONTROL. REAL PEACE OF MIND.

Designed exclusively for Attic Breeze UltraBreeze and GableBreeze solar attic fans, Breeze Mate doesn't just run your system; it helps ensure it's working exactly as it should.

- ✓ Adjust temperature and humidity independently
- ✓ Monitor fan activity and system performance
- ✓ Automatic or manual operation
- ✓ Control up to 10 fans from one interface

Breeze Mate

COMFORT YOU DON'T HAVE TO THINK ABOUT

Your home should feel just right without constant adjusting, guessing, or worrying about what's happening in the attic.

Breeze Mate gives you simple, precise control over your attic ventilation system, helping keep your home cooler, drier, and more comfortable all year long. Just set your ideal temperature and humidity, and let it handle the rest.

BRING COMFORT HOME.
THE BREEZE STARTS HERE.
